SUMMARY

UX/UI Designer with extensive experience supporting enterprise-level, highly regulated environments—including Aerospace and Military programs for Boeing, Lockheed Martin, Collins Aerospace, and NORDAM. Skilled in UI Kits, Design Systems, prototyping, user research, and workflow optimization.

CORE STRENGTHS

- UI Kits & Design Systems
- Enterprise UX & Product Design
- UX Research & Usability Testing
- User Flows, Wireframes, Prototypes
- Regulated Industry Experience (Aerospace/Military)
- S1000D Data Integrity & Structured Authoring
- Developer Collaboration

TECHNICAL SKILLS

Figma, Adobe XD, Illustrator, Photoshop, InDesign, After Effects, Miro, UXPressia, HTML, CSS, XML, Python, SQL, SQLite Studio, SQL Server Management Studio, FrameMaker.

EXPERIENCE

Technical Publications System Administrator & UX/UI Designer – APA Services for NORDAM

Sept 2025 – Present | Remote (Vermont)

After relocating to Vermont, NORDAM retained me in my previous role by transitioning me to APA Services as the employer of record. Responsibilities, system access, workflows, and deliverables remain the same.

- Support NORDAM's S1000D Technical Publications department in the creation and maintenance of compliant documentation for Gulfstream, Airbus, and Pratt & Whitney.
- Provide UX/UI design input for NORSoft, the in-house S1000D application suite.
- Ensure CSDB data integrity, run validations, generate XML structures, and support publication workflows.
- Collaborate with developers, writers, and program leads to maintain consistent, high-quality technical output.

Software Developer / UX/UI Designer – RCM Technologies

2022 – 2023

- Designed UX flows, wireframes, and prototypes for Boeing Aeronautics and Lockheed Martin.
- Conducted user acceptance testing for XML/CGM conversion software intended for USAF programs.
- Used XSL, Python, ArborText, Illustrator, Photoshop, and Corel to support conversion workflows.

Senior UX Designer – Collinear Group

2022 – 2023

- Designed enterprise UX solutions for Boeing Aeronautics.
- Produced prototypes and system-wide UI approaches to support product management platforms.

Technical Publications System Admin & Application Developer II / UX/UI Designer – NORDAM

2018 – Sept 2025

- Co-designed NORSoft, an internal S1000D-compliant application suite.
- Performed UX/UI design for internal tools and ensured S1000D/ATA compliance.
- Maintained CSDB integrity, authored XML templates, validated files, and delivered customer-compliant publications.

UX Designer & Graphic Artist – Cyber Bytz

2010 – Present

- Freelance UX/UI, technical publications, branding, and multimedia work.

UX Designer & Graphic Designer – Imzadi Publishing, LLC

2010 – Present

- Designed cover art, book trailers, layouts, and hand-coded eBooks (HTML/CSS).

EDUCATION

Bachelor of Business Management – University of Phoenix, 2002

CERTIFICATIONS

UX Design Institute (UX & UI Design), Google UX Design, Python Data Structures (Univ. of Michigan)

AWARDS

Gold & Bronze Medals from AuthorsDB for cover design.
